

MBS Capstone Project Agreement

Course: Biol 6999

A permission number to register for Biol 6999 will be given only after this form has been signed and submitted to the M.B.S. Program. The student, the advisor and the program should each have a copy of the signed agreement.

Student Name: _____ **ID Number:** _____
Phone: _____ **Email:** _____

Capstone requirements:

The capstone project is an independent project that offers the M.B.S. student an opportunity to focus on an area of interest and to tie together the course work taken for the Master of Biological Science degree. The project is worth two credits and should represent a minimum of 100 hours of effort. The project may be a literature, lab or field-based project that relates to the student's area of concentration in the M.B.S. Program. A written and an oral presentation of the capstone must be presented to and approved by a three person Advisory Committee to receive credit and a grade for this course.

Capstone Project Title: _____

Brief Description of Project:

Student Signature: _____ **Date:** _____
Advisor Signature: _____ **Date:** _____
DGS Signature: _____ **Date:** _____
